European Union Directive 2011/65/EU RoHS Certificate of Compliance

National Imports LLC tests a single sample magnet from each production of our retail packaged MAGCRAFT® brand magnetic products to determine if they are in compliance with the European Union Directive 2011/65/EU for the Restriction of the use of certain Hazardous Substances in Electrical and Electronic Equipment (RoHS). Based on the testing of these samples, MAGCRAFT® brand packaged magnetic products produced after April 13, 2012 are in compliance with the RoHS directive.

No Lead (Pb), Cadmium (Cd), Mercury (Hg), Hexavalent Chromium (Cr+6), PBB or PBDE is intentionally added to MAGCRAFT® brand magnetic products. For the samples tested, these substances were determined to be below the following RoHS specified threshold levels:

Lead (Pb) < 1000ppm

Mercury (Hg) < 1000ppm

Hexavalent Chromium (Cr+6) < 1000ppm

Cadmium (Cd) < 100ppm

All information provided in this Certificate of Compliance is accurate, to the best of our knowledge, as of the date this certification was issued.

Custom manufactured magnets and magnets delivered in bulk are not routinely tested for compliance with the RoHS directive. This certificate does not apply to magnets that are custom manufactured and delivered in bulk.
